

Accuracy of Annual Accounts 2011 and legality of transactions of the Ministry of Finance

Report of the National Audit Office to the Riigikogu, Tallinn, 25 June 2012

Summary of audit results

The State Budget Act assigns the National Audit Office the obligation to audit the accounting and the legality of transactions of ministries. The National Audit Office audited the accuracy of the Annual Accounts 2011 of the Ministry of Finance and the conformity of the transactions it entered into with legislation that regulates the use of the state budget.

The National Audit Office also evaluated whether the ministry and its area of government have developed an effective internal audit system that creates the conditions required for the correct use of funds allocated for investments and labour costs, and for the existence and prudent use of assets. The National Audit Office also paid attention to whether the main principles of the Public Procurement Act had been adhered to.

The budgetary expenses of the ministry in 2011 were 1.4 billion euros, and the balance sheet total as of 31 December 2011 amounted to 7.7 billion euros.

The main conclusions of the National Audit Office are the following:

- The Annual Accounts of the Ministry of Finance, in all material respects, give a true and fair view of the ministry's financial position and financial performance results.
- The audited transactions have been carried out in compliance with the State Budget Act, the 2011 State Budget Act and the Act Amending the 2011 State Budget Act. The funds allocated to the ministry for investment and labour costs were used for their intended purpose in the audited transactions.
- The ministry and the agencies in its area of government have acted prudently and according to applicable rules in acquiring, using and transferring intangible and tangible assets.
- The Ministry of Finance and the agencies in its area of government have generally complied with the Public Procurement Act, but there were omissions in the procedures that regulate procurement.

Response of the Minister of Finance: The minister agreed with the proposals made by the National Audit Office and found that they help the ministry develop its internal control systems and financial management.

Ines Metsalu
Director of Audit, Financial Audit Department
